

Configure Audio Devices – step 1, 2, 3, 4

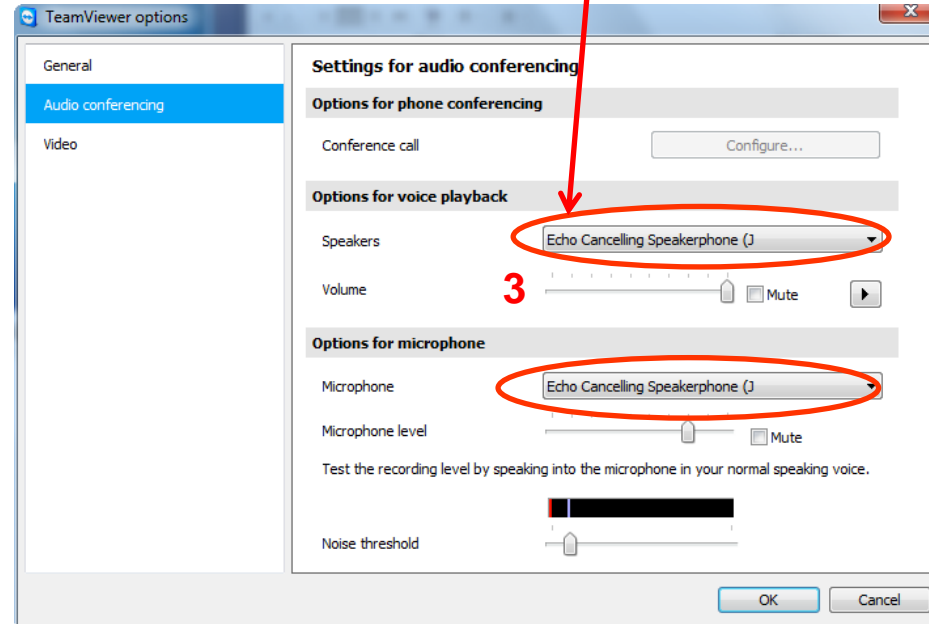

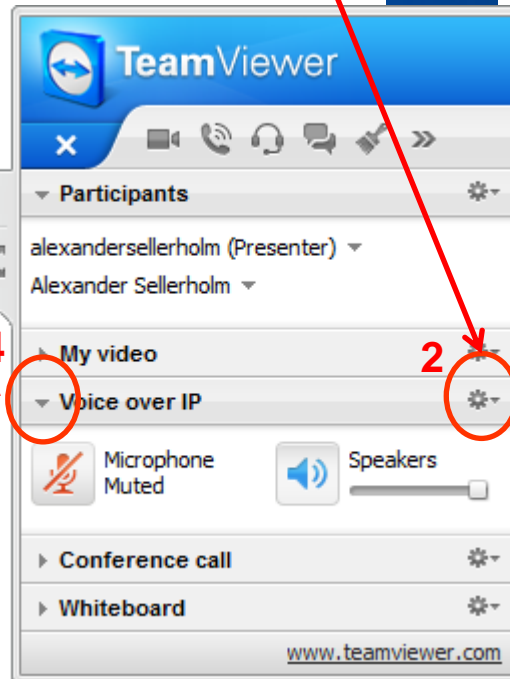

1. Locate the TeamViewer control at the upper right edge of the screen.

2. Click 'Audio settings' to select audio devices.

4. Select 'Voice over IP' and un-mute microphone. Check sound and microphone.

Enter full screen mode.

3. Select Speaker and microphone devices.

In general, TeamViewer will always work if surfing on the Internet is possible. If you are experiencing problems with Proxy settings, contact your IT-administration.
